Summary

Enthusiastic Junior Front-End Developer with hands-on experience in React and Next through projects and professional experience. Passionate about building responsive, user-friendly web applications with modern JavaScript frameworks. Quick learner with strong problem-solving skills and attention to detail.

Education

Bachelor of Computer Science and Information Systems

2021-2025

Culture and Science City - O6U

6 October City

Professional Experience

Front-End Development Intern

May 2025 - July 2025

All Safe

on site

- Developed and maintained responsive web applications using React.js
- Implemented new features and UI components following design specifications
- Optimized application performance, reducing load times by 30%
- Collaborated with backend developers to integrate RESTful APIs
- Fixed UI bugs and improved accessibility across multiple projects

Projects

- **Meowney** (Next, TypeScript, Hono) - Built a finance tracking app, making it easy to track your financial state, manage accounts, and upload transactions data using CSV files. It features a user-friendly responsive interface, real-time data fetching, dynamic charts.(Live Demo) (GitHub Repo)
- **Egy-Railway** (React, TailwindCSS, Supabase) - a train booking app designed for Egypt railways, making it easy to search, book, and manage train trips. It features a user-friendly interface, real-time train schedules.(Live Demo) (GitHub Repo)
- **The Wild Oasis - Website** (Next, TailwindCSS, Supabase) - Developed a modern hotel booking app, making it easy for users to reserve cabins, reservations. It features a user-friendly interface, real-time data updates.(Live Demo) (GitHub Repo)
- **The Wild Oasis - Dashboard** (React, Styled-Components, Supabase) - Developed a modern hotel management app, making it easy for hotel staff to manage cabins, reservations, and add other staff members. It features a user-friendly interface, real-time data updates.(Live Demo) (GitHub Repo)
- **Foodie** (JavaScript, SCSS, RESTful APIs) - Developed a responsive recipe app, allowing users to search, and bookmark recipes. Integrated a dynamic API to display recipe details, including ingredients and cooking instructions. (Live Demo) (GitHub Repo)
- **Natours** (HTML, SCSS, JavaScript) - A responsive landing page using HTML, CSS, and SCSS. Utilized modular Sass for maintainable and reusable styling. Focused on creating a visually appealing layout with smooth animations and cross-browser compatibility.(Live Demo) (GitHub Repo)

Technical Skills

- **Front-End:** React.js, Next.js, JavaScript, TypeScript, HTML, CSS, Styled-Components, Tailwind CSS, Sass
- **State Management:** Redux-Toolkit, Context API, Zustand
- **Version Control:** Git, GitHub
- **Animations:** motion (ex framer-motion), GSAP

- **Back-End:** Supabase, currently learning Node.js (Hono, Express), MongoDB
- **Other Tools:** RESTful APIs, react-hook-form, formik, yup, zod, Shadcn, MUI, VSCode, VIM, Postman

Languages

- **Arabic:** Native
- **English:** Proficient
